

# HOT NEW STYLES! (AND CHANGES)

*New Brunswick Lamp Shade Co., Inc.*

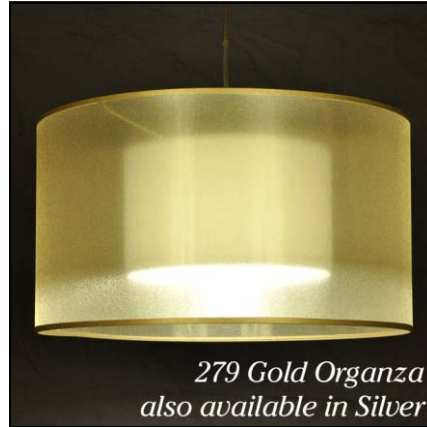

Catalog Update Current as of August, 2011

This sheet shows the changes to our product line since the printing of Catalog 02. Prices are shown on the price list.

### Eco-Shades!

**Style 202 Hemp, Style 211 Hemp/Organic Cotton, Style 284 Hemp/Silk.** Our new Eco-Shade Collection features sustainably produced fabrics, laminated to an environmentally-friendly paper backing using water-based adhesives. Even the wrapping is a biodegradable, compostable cellophane. All have self-fold trim.

**Style 279 Organza** is a sheer organza on a clear backing. Typically used to create a veil form revealing something inside, this material begs you to use your imagination. We've seen it used around the arms of a chandelier and with "inner shades" (as shown but not included). It is available in Gold and Silver. Both colors come with gold binding tape, but other trims are available. Call or e-mail for pricing.

**Style 286 Genuine Dupioni Silk Shantung.** This genuine silk shantung offers the texture that can only be found in genuine silk. Available in White, Cream, (which is on the "bone" side of cream), Bronze, Taupe and Silver. It is also available in many colors on special order. On our heavy translucent plastic backing, narrow self-fold trim.

**Style 290 Genuine Silk Pongee.** Our new fine-weave genuine silk is popular with lighting designers that want a genuine silk hardback shade with a delicate texture. Available in White, Ivory, and a light mocha "Natural", on our heavy translucent plastic backing. All sizes are made with a narrow self-fold trim

**Styles 713 Bright White and 766 Chalk White Art Paper.** Smooth acid-free paper similar to our top-selling #703. Great for emphasizing shade shape or painting. Style 713 normally comes with a white fabric binding. Specify paper binding when painting the whole shade. On our heavy plastic backing.

**Style 758 Kraft Onionskin** is a kraft-colored paper that's thin, like an onion skin, showing the texture of the fibers. This is an interesting variation on the kraft paper theme. This material can take on completely different looks depending upon the shade shape and details. Comes with a matching fabric binding.

**Styles 750 and 757 European Parchment:** This translucent amber imported parchment comes either as Style 750 (background without antiquing) or Style 757 (foreground) with our hand-applied antiquing, shown here with leather lacing as Style 757LB.

**Styles 759 White and 762 Cream European Parchment** are very translucent, vellum-like papers that complement a wide range of lamps. The material gives the light a soft glow. High wattage bulbs may show "hot spots".

**Style 743 Black Linen/Percale on Opaque Backing,** white interior. This rich, smooth-textured fabric fills requests for an opaque black fabric shade. Self-fold trim.

**Styles 832 & 833 Black Fabric with Gold or Silver Foil Linings.** Our silky tight-weave black fabric with a gold or silver foil lining. 832 is Black/Gold, 833 is Black/Silver. Matching self fold trim.

**Style 865 Grasscloth, Style 869 Tan Grasscloth, and 874 Light Grasscloth.** Popular new styles! Style 874 (foreground) has a light colored fine weave. Style 869 is a golden-tan version. Style 865 (background) is darker, with larger fibers and a bolder texture. With coordinating fabric trim.

**Style 866 "Silk Gleam".** This silk-like material has a slight sheen, and the colors stay rich when the lamp is lit. Stocked in six colors: Pearl, Sand, Titanium, Amber, Bronze and Celadon. Narrow self-fold trim. There are more colors available on special order.

## Other New Additions

New color for our "Famous Painted" styles 402-472 on page 4 of our catalog: Lime Green
